

Brainstorming Questions: Pre-K-2nd Grade

1. How does your brain feel?

- a. Hard
- b. Soft ✓

Talking Point: Your brain is soft and squishy...kind of like Jell-O. Your skull is the hard bone that protects your soft brain.

2. Can you fix your brain with a band-aid or cast?

- a. Yes
- b. No ✓

Talking Point: Your brain cannot heal by putting a band-aid or cast. That is why it's so important to protect your brain and keep it safe.

3. Name one thing your brain does.

Talking Point: Lead the children in a discussion of all the things the brain does. Include physical movements, memory, and emotions.

4. Your brain is in charge of everything you think, feel and do.

- a. True ✓
- b. False

Talking Point: The key point is that the brain is our most important organ.

5. How many brains do you have?

- a. One ✓

6. How long do you need your brain to last?

- a. Forever ✓
