

CRAASH PROJECT

College Roads and Safety Habits

Making Your Highlight Reel

Take this opportunity to be creative and present a glimpse of your project. Highlight reels will be used for promotional purposes. We are excited to see the results of what you and your team develop!

Here are helpful guidelines to follow when you create your highlight reel:

- Start with your college and project name in the first 2 seconds.
- Use free editing platforms (Capcut, TikTok, or Instagram) to add transitions and effects.
- Save as .mp4 file and upload to the final update form and ensure the video is 15 seconds long.
